

ABA:1545

S0

The image displays a blue brain scan slice, likely an axial view, centered on a black background. A prominent vertical black line runs through the center of the brain, extending from the top to the bottom. The brain tissue is represented by a solid blue color. A horizontal white line crosses the brain slice near the bottom. The text 'ABA:1545' is located in the top left corner, and 'S0' is in the bottom left corner. The entire image is overlaid with a white grid consisting of two vertical and one horizontal lines.
