

ABA: 321206

A posterior

An axial brain scan image showing a posterior view. The image is predominantly blue, with two distinct, bright cyan-colored regions located symmetrically in the posterior part of the brain, likely representing the occipital lobes. A vertical white line is positioned in the center of the image, and a horizontal white line is positioned near the bottom. The text 'ABA: 321206' is located in the top left corner, and 'A posterior' is located in the bottom left corner.
