

ABA:583870

SCN

This image shows a coronal section of a brain with blue fluorescence. The fluorescence is concentrated in the central region, likely the suprachiasmatic nucleus (SCN), and is also visible in the surrounding tissue. The image is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA:583870' is in the top-left corner and 'SCN' is in the bottom-left corner.
