

ABA:67767462

VMH

This fluorescence microscopy image displays a coronal section of a brain. The image is characterized by a dark background with two prominent, bright blue, circular regions of fluorescence. These regions are positioned symmetrically on either side of a central vertical axis. A horizontal line and a vertical line intersect at the center of the image, dividing it into four quadrants. The text 'ABA:67767462' is located in the top-left corner, and 'VMH' is located in the bottom-left corner.
