

ABA:67792194

OB anterior

A fluorescence microscopy image of a brain section. The image is dark with a central region of blue fluorescence. The fluorescence is distributed in two main lobes, one on the left and one on the right, separated by a vertical line. A smaller, more intense blue spot is visible in the center, below the horizontal line. The image is overlaid with a white crosshair consisting of a vertical and a horizontal line. The text 'ABA:67792194' is in the top left corner, and 'OB anterior' is in the bottom left corner.
