

ABA:67814204

Arc

The image displays a brain scan, likely an fMRI or PET scan, showing two hemispheres. The brain tissue is represented by a blue, textured area against a black background. A vertical white line divides the image into two equal halves, representing the left and right hemispheres. A horizontal white line is positioned near the bottom of the image. In the top-left corner, the text 'ABA:67814204' is displayed in white. In the bottom-left corner, the text 'Arc' is displayed in white. There are several small, bright cyan spots on the brain surface, with the most prominent one located at the bottom center, just above the horizontal line and slightly to the right of the vertical line.
