MD

A blue brain scan image, likely an MRI or PET scan, showing a cross-section of a brain. The image is centered on a black background. A white crosshair is overlaid on the image, with a vertical line and a horizontal line intersecting at the center. The brain tissue is represented by a solid blue color. There are some lighter blue areas, possibly indicating regions of interest or higher intensity. The overall shape of the brain is roughly circular, with some internal structures visible.
