

ABA: 68157418

SCN

The image displays a coronal cross-section of a brain, likely from a rodent, with two prominent blue-colored regions on either side of a central vertical line. These regions represent areas of activation or specific anatomical structures. A small white dot is visible within the left blue region. A horizontal white line runs across the lower portion of the image, intersecting the vertical line. The text 'ABA: 68157418' is located in the top left corner, and 'SCN' is in the bottom left corner.
