

ABA: 68341250

Arc

This is an astronomical image of a galaxy, likely a barred spiral galaxy, shown in a false-color representation. The image is centered on a bright, elongated core that exhibits a color gradient from blue to yellow to red, indicating different intensity or temperature levels. The surrounding disk and spiral arms are predominantly blue. Two thin white lines, representing right ascension and declination, intersect at the center of the galaxy. The text 'ABA: 68341250' is located in the top-left corner, and 'Arc' is in the bottom-left corner.
