

ABA: 68410231

Arc

The image displays a cross-sectional view of a brain, likely from a PET or SPECT scan. The brain is centered against a black background. A vertical white line bisects the image, and a horizontal white line runs across the lower portion. The left hemisphere of the brain shows several distinct areas of high metabolic activity, indicated by yellow and orange colors, particularly in the lower-left and central regions. The right hemisphere appears mostly uniform in blue, suggesting lower activity levels. The text 'ABA: 68410231' is positioned in the upper-left corner, and 'Arc' is in the lower-left corner.
