

ABA: 68545687

LH

A coronal brain scan image, likely an MRI or PET scan, showing a cross-section of the brain. The image is predominantly black, with a blue highlighted region in the left hemisphere (viewer's left). The blue region is irregularly shaped and appears to be located in the posterior part of the brain, possibly involving the occipital lobe. A white grid is overlaid on the image, with a vertical line passing through the center and a horizontal line passing through the middle. The text 'ABA: 68545687' is in the top left corner, and 'LH' is in the bottom left corner.
