

ABA: 68563019

CA1

This is a fluorescence microscopy image of a brain section, likely from a rodent. The image shows a coronal slice with a central dark region representing the brain's midline. The left hemisphere (viewer's left) shows a prominent, bright blue fluorescent signal, particularly in the lower-left quadrant, which is labeled 'CA1'. The right hemisphere (viewer's right) shows a much dimmer, more uniform blue signal. A white crosshair is overlaid on the image, with the vertical line passing through the midline and the horizontal line passing through the center of the brain slice. The text 'ABA: 68563019' is in the top left corner, and 'CA1' is in the bottom left corner.
