

ABA: 68563092

CA1

This is a fluorescence microscopy image of a brain section. The image is divided into four quadrants by a white crosshair. The left half of the image shows a bright, irregularly shaped region of fluorescence, primarily in shades of blue and cyan, with some yellow and green highlights. This region is labeled 'CA1' in the bottom left corner. The right half of the image is mostly dark, indicating a lack of fluorescence in that area. The top left corner of the image contains the text 'ABA: 68563092'.
