

ABA: 68668024

CA1

This is a fluorescence microscopy image of a brain section. The image is divided into four quadrants by a white crosshair. The left half of the image shows a complex pattern of blue and yellow fluorescence, indicating the presence of a specific marker. The right half is predominantly dark blue, suggesting a control or a different region. The text 'ABA: 68668024' is in the top left, and 'CA1' is in the bottom left.
