

ABA: 68795410

LH

The image displays a cross-sectional view of a brain, likely from a PET or SPECT scan. The brain is represented by a blue silhouette against a black background. A vertical white line runs down the center, and a horizontal white line runs across the middle. The left hemisphere is labeled 'LH' in the bottom left corner. A color scale is visible in the top left corner, ranging from blue to yellow, with the number 'ABA: 68795410' above it. A small, bright yellow and orange spot is visible in the lower-left quadrant of the brain, indicating a region of high activity or concentration. The rest of the brain is mostly blue, with some lighter blue areas indicating lower activity.
