

ABA: 69013149

SCN

This fluorescence microscopy image displays a coronal section of a brain. The image is divided into four quadrants by a vertical and a horizontal white line. The left half of the image shows a bright blue, irregularly shaped region, likely representing the SCN (Suprachiasmatic Nucleus). The right half of the image is dark, indicating a lack of signal. The text 'ABA: 69013149' is in the top left, and 'SCN' is in the bottom left.
