

ABA: 69059940

CA1

This is a fluorescence microscopy image of a brain section. The image is divided into four quadrants by a vertical and a horizontal white line. The left half of the image shows a bright blue, irregularly shaped region, likely representing the CA1 area of the hippocampus. The right half is mostly dark, with a small, faint blue spot visible near the center. The text 'ABA: 69059940' is in the top left, and 'CA1' is in the bottom left.
