

ABA: 69116402

CA1

The image displays a cross-sectional view of a brain, likely from a PET or SPECT scan. A central region is highlighted in a bright blue color, indicating areas of increased metabolic or functional activity. This highlighted area is primarily located in the medial frontal and anterior cingulate cortex regions. The rest of the brain tissue appears in a darker, more uniform blue. A white crosshair is overlaid on the image, with the vertical line passing through the center of the highlighted region. The text 'ABA: 69116402' is positioned in the top left corner, and 'CA1' is in the bottom left corner.
