

ABA: 69134244

OB anterior

This image is a fluorescence micrograph of a brain section. It features two distinct clusters of signal. The cluster on the left is more complex, showing two primary spots of high-intensity yellow-green signal, with a surrounding area of lower-intensity blue signal. The cluster on the right is a single, more uniform area of blue signal. A horizontal white line and a vertical white line intersect at the center of the image, serving as a reference grid. The text 'ABA: 69134244' is located in the top-left corner, and 'OB anterior' is in the bottom-left corner.
