Arc

The image displays a coronal cross-section of a brain. The left hemisphere (viewer's left) features a prominent blue highlighted area in the posterior region, likely representing a specific functional or structural region of interest. The right hemisphere (viewer's right) appears mostly uniform in color. A vertical white line bisects the image, separating the two hemispheres. A horizontal white line is positioned near the bottom of the image. The text 'ABA: 69261925' is located in the top left corner, and 'Arc' is in the bottom left corner.
