

ABA: 69352688

OB anterior

An axial brain scan image showing two distinct blue-colored regions of activation in the occipital cortex, one on each side of the midline. The image is overlaid with a white crosshair consisting of a vertical line and a horizontal line. The text 'ABA: 69352688' is located in the top left corner, and 'OB anterior' is located in the bottom left corner.
