

ABA:69407481

OB anterior

The image displays a brain scan, likely a PET or SPECT scan, showing two distinct, blue, lobulated structures. These structures are positioned symmetrically on either side of a central vertical line, which appears to be the midline of the brain. The background is black, and the structures are highlighted in a bright blue color. The text 'ABA:69407481' is located at the top left, and 'OB anterior' is at the bottom left. A horizontal line also crosses the image, intersecting the vertical line and the blue structures.
