

ABA: 69407582

VMH

This image shows a coronal section of a brain with a blue fluorescent signal. The signal is concentrated in the left hemisphere, specifically in the ventral medial hypothalamus (VMH) region, which is labeled in the bottom left. The right hemisphere shows a much weaker, more uniform blue signal. A vertical white line divides the image into two halves, and a horizontal white line is positioned below the brain section. The text 'ABA: 69407582' is located in the top left corner.
