

ABA: 69549647

VMH

The image shows a coronal section of a brain. A large, irregularly shaped region in the left hemisphere is highlighted in a solid blue color. This region is located in the posterior and lateral part of the brain, roughly corresponding to the area of the visual cortex and associated structures. The rest of the brain slice is shown in grayscale. A white crosshair is overlaid on the image, with the vertical line passing through the center of the brain and the horizontal line passing through the middle of the slice. The text 'ABA: 69549647' is in the top left corner, and 'VMH' is in the bottom left corner.
