

ABA: 69608983

Cb lobe

The image displays a coronal brain scan with a color-coded activation map. A prominent, localized cluster of high-intensity activation is visible in the left hemisphere, colored with a gradient from blue to red. The rest of the brain area shown is predominantly blue, indicating lower levels of activation. A white crosshair is overlaid on the image, with the vertical line passing through the center of the brain and the horizontal line passing through the level of the activation cluster. The text 'ABA: 69608983' is in the top left, and 'Cb lobe' is in the bottom left.
