

ABA: 69752125

Pn

The image displays a coronal cross-section of a brain, likely from a PET or SPECT scan. The brain is divided into two hemispheres by a vertical line. The left hemisphere (viewer's left) shows a distinct, bright yellow-green spot in the lower-left region, which is highlighted by a small white circle. The rest of the brain tissue is represented in shades of blue. The background is black. The text 'ABA: 69752125' is in the top left, and 'Pn' is in the bottom left.
