

ABA:69782079

VMH

This fluorescence microscopy image displays a coronal section of a brain. The image is characterized by a dark background with blue and yellow-green fluorescence. A prominent yellow-green spot is visible in the upper left quadrant, and a smaller, less intense yellow-green spot is located in the lower left quadrant. The rest of the brain tissue appears as a uniform blue color. A white crosshair is overlaid on the image, with the vertical line passing through the center and the horizontal line passing through the lower part of the image. The text 'ABA:69782079' is in the top left corner, and 'VMH' is in the bottom left corner.
