

ABA: 69818332

Arc

This is a coronal brain scan image, likely an MRI or PET scan. The image shows a cross-section of the brain with a white crosshair overlay. A small, bright yellow/green area is visible in the left hemisphere, suggesting a localized area of high intensity or activity. The rest of the brain appears in shades of blue, indicating lower intensity. The text 'ABA: 69818332' is in the top left, and 'Arc' is in the bottom left.
