

ABA: 70194666

VMH

This fluorescence microscopy image displays a coronal section of a brain. The image is divided into two main regions by a vertical white line. The left region shows a complex, multi-colored pattern of fluorescence, with a prominent yellow-green area at the bottom left and a blue area at the top left. The right region is a solid, uniform blue. A horizontal white line intersects the vertical line, creating a crosshair. The text 'ABA: 70194666' is in the top left, and 'VMH' is in the bottom left.
