

ABA:70230843

CA1

This is a fluorescence microscopy image of a brain section. The image is divided into four quadrants by a white crosshair. The left half of the image shows a brain section with several bright blue spots, indicating areas of fluorescence. A small, distinct yellowish-orange spot is visible in the upper left quadrant. The right half of the image is mostly dark blue, suggesting a lower level of fluorescence or a different region. The text 'ABA:70230843' is in the top left, and 'CA1' is in the bottom left.
