

ABA:70300162

SCN

This fluorescence microscopy image displays a coronal section of a brain, with the Suprachiasmatic Nucleus (SCN) highlighted in blue. The SCN is located in the lower-left quadrant of the image. The image is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA:70300162' is in the top-left, and 'SCN' is in the bottom-left. The blue signal represents the SCN, showing a dense cluster of neurons with some brighter spots indicating higher intensity or specific cell types.
