

ABA:70300780

SCN

This image is a fluorescence micrograph of a brain section, likely from a rodent, showing the location of the Suprachiasmatic Nucleus (SCN) and the Area of the Brain (ABA). The SCN is highlighted in bright blue, indicating high fluorescence intensity, and is located in the lower-left quadrant of the image. The ABA is highlighted in a darker blue, indicating lower fluorescence intensity, and is located in the upper-right quadrant. A white crosshair is visible in the center of the image, dividing it into four quadrants. The text 'ABA:70300780' is in the top-left corner, and 'SCN' is in the bottom-left corner.
