

ABA: 70303486

SC

The image displays a coronal cross-section of a human brain. The brain tissue is represented in shades of blue, indicating a baseline level of activity. A prominent, localized area of high activity, shown in yellow and light blue, is located in the left hemisphere, specifically in the posterior region near the occipital lobe. The image is overlaid with a white grid consisting of a vertical line and a horizontal line that intersect at the center of the brain. The text 'ABA: 70303486' is positioned in the top left corner, and 'SC' is in the bottom left corner.
