Cb lobe

The image displays a brain scan, likely an MRI, with a specific region highlighted in blue. This region is located in the cerebellum, as indicated by the label 'Cb lobe' in the bottom left corner. The blue area has a complex, somewhat symmetrical shape with a central vertical indentation. A small, bright blue spot is visible within the upper-left portion of this highlighted area. The entire image is set against a black background and is overlaid with a white grid consisting of three vertical and three horizontal lines.
