

ABA:70526028

Tg

The image shows a fluorescence microscopy scan of a brain section. The brain tissue is stained with a blue fluorescent marker. The left hemisphere (viewer's left) shows a broad area of blue fluorescence. The right hemisphere (viewer's right) shows a similar area of blue fluorescence, but with a distinct, bright, localized spot of higher intensity near the center. A white crosshair is overlaid on the image, dividing it into four quadrants. The text 'ABA:70526028' is in the top left, and 'Tg' is in the bottom left.
