

ABA:70565189

Pir

A blue brain scan image, likely a PET or SPECT scan, showing a coronal cross-section of a human brain. The image is centered on a black background. A vertical white line and a horizontal white line intersect at the center of the brain, forming a crosshair. The brain tissue is represented by a solid blue color. There are some subtle variations in the blue color, suggesting different levels of activity or density. The label 'ABA:70565189' is in the top left corner, and 'Pir' is in the bottom left corner.
