

ABA:70598393

Tg

A fluorescence microscopy image of a cell. The cell is stained with a blue dye, likely DAPI, to visualize the nucleus. A bright cyan spot is visible within the nucleus, indicating a specific region of interest. The image is divided into four quadrants by a white crosshair. The text 'ABA:70598393' is in the top left, and 'Tg' is in the bottom left.
