

ABA:70946633

SCN

This image is a fluorescence micrograph of a brain section, likely from a rodent, showing the location of the Suprachiasmatic Nucleus (SCN). The image is divided into four quadrants by a vertical and a horizontal white line. The left half of the image shows a bright, irregularly shaped region of high fluorescence, primarily in shades of cyan and blue, indicating areas of high signal intensity. The right half of the image is mostly dark, with a faint, uniform blue glow. The text 'ABA:70946633' is in the top left corner, and 'SCN' is in the bottom left corner.
