

ABA:71020402

SPa dorsal

This is a coronal brain scan image, likely a PET or SPECT scan, showing a cross-section of the brain. The image is predominantly blue, indicating low activity, with a prominent bright yellow and white spot located on the midline, likely representing the pineal gland or a similar structure. The image is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA:71020402' is in the top left, and 'SPa dorsal' is in the bottom left.
