

ABA:71211272

VMH

A coronal section of a rodent brain is shown against a black background. A large, symmetrical region in the medial prefrontal cortex is highlighted in a solid blue color. This region is roughly butterfly-shaped, with the wings extending laterally and medially. A vertical white line runs through the center of the brain, and a horizontal white line runs across the middle, intersecting at the center of the blue region. The label 'ABA:71211272' is in the top left, and 'VMH' is in the bottom left.
