

ABA: 71281819

ventral S

The image shows a coronal section of a brain. A large, irregularly shaped region in the upper half of the brain is highlighted in a solid blue color. This region is roughly symmetrical about the midline and covers a significant portion of the dorsal and lateral areas. The rest of the brain tissue is shown in grayscale. A vertical white line runs down the center of the brain, representing the midline. A horizontal white line crosses the brain, likely representing a specific anatomical plane. The text 'ABA: 71281819' is located in the top left corner, and 'ventral S' is in the bottom left corner.
