

ABA: 71493123

CA1

A brain scan image, likely an axial slice, showing a blue-colored brain structure against a black background. The image is overlaid with a white grid. The text "ABA: 71493123" is in the top left, and "CA1" is in the bottom left. The blue area represents a specific brain region, possibly the CA1 region of the hippocampus, which is highlighted in a bright blue color. The grid lines are white and intersect at the center of the brain image.
