

ABA: 71836843

LH

This figure is an axial brain scan, likely a PET or SPECT image, showing a cross-section of the brain. The image is predominantly blue, indicating low levels of activity. Two distinct, bright yellow-green spots are visible, one in each lateral hemisphere, indicating areas of increased metabolic or functional activity. A white crosshair is overlaid on the image, with the vertical line passing through the center and the horizontal line passing through the level of the two active spots. The text 'ABA: 71836843' is in the top left, and 'LH' is in the bottom left.
