

ABA:72008120

Arc

This is a coronal brain scan image, likely a PET or SPECT scan, showing a cross-section of the brain. The image is predominantly blue, with a bright yellow-green spot in the left hemisphere (viewer's left) indicating a region of high metabolic activity or a lesion. A vertical white line runs down the center of the image, and a horizontal white line runs across the middle, intersecting at the center of the brain. The text 'ABA:72008120' is in the top left corner, and 'Arc' is in the bottom left corner.
