

ABA:72081665

VMH

The image displays a coronal cross-section of a brain. A vertical white line divides the image into two hemispheres. A horizontal white line intersects the vertical one, creating a crosshair. In the lower-left quadrant, there is a small, localized area of high intensity, appearing as a red spot with a blue halo. The rest of the brain area is filled with a solid blue color. The text 'ABA:72081665' is in the top-left corner and 'VMH' is in the bottom-left corner.
