

ABA: 72182944

VMH

This image is a fluorescence micrograph of a brain section, likely from a rodent. The image is divided into four quadrants by a vertical and a horizontal white line. The left half of the image shows a complex, branching pattern of bright blue fluorescence, which is characteristic of the ventral medial hypothalamus (VMH). The right half of the image is mostly dark, indicating a lack of fluorescence in that region. The text 'ABA: 72182944' is in the top left, and 'VMH' is in the bottom left.
