

ABA:72472802

GP

This is a fluorescence microscopy image of a brain section, likely a coronal slice. The image shows a central bright spot, which is the source of the fluorescence. The bright spot is surrounded by a blue, diffuse glow, indicating the spread of the fluorescent signal. The image is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA:72472802' is in the top left, and 'GP' is in the bottom left.
