

ABA:73514803

ME

The image displays two side-by-side brain scans, likely PET or SPECT, showing functional activity. The left scan, labeled 'ME' in the bottom-left corner, shows several distinct, bright spots of activity, particularly in the upper and lower central regions. The right scan, labeled 'ABA:73514803' in the top-left corner, shows a much more uniform and darker distribution of activity across the entire brain area. A vertical white line separates the two scans, and a horizontal white line runs across the middle of the image.
