

ABA:74512027

DM

A coronal brain scan image, likely a PET or SPECT scan, showing a blue-colored brain structure against a black background. The image is bisected by a vertical white line. The text "ABA:74512027" is in the top left corner, and "DM" is in the bottom left corner. The brain structure shows a central region of higher intensity, possibly representing the thalamus or a similar deep brain structure, with a more diffuse, lower-intensity region extending laterally and inferiorly. The overall shape is roughly oval, consistent with a coronal slice of a human brain.
