

ABA:74562284

LH

A coronal brain scan image, likely an MRI, showing a cross-section of the brain. The image is predominantly black, with a large, irregularly shaped blue region highlighted in the left hemisphere (viewer's left). This blue region appears to be a lesion or an area of abnormality. A white crosshair is overlaid on the image, with a vertical line passing through the center and a horizontal line passing through the middle of the brain. The text 'ABA:74562284' is located in the top left corner, and 'LH' is in the bottom left corner.
